PROJECTS

Quick Notes : Quick Notes is a web application developed using Java, Hibernate, and SQL. It allows users to add, update, delete, and view notes stored in a database. The project demonstrates web development and database management skills.
Key Contributions:
- Developed and maintained the Quick Notes application using Java and Hibernate.
- Implemented CRUD operations for efficient note management.
- Utilized Hibernate ORM for seamless interaction with the SQL database.

Banking System: Banking Management System is a console-based application developed using Java, OOP concepts, JDBC, and SQL. The system allows users to register, log in, open bank accounts, credit and debit amounts, transfer funds, and check account balances.
Key Contributions:
- Developed a console-based Banking Management System using Java, OOP concepts, JDBC, and SQL.
- Enabled users to open bank accounts, credit, debit, and transfer amounts, and check account balances.
